

THE BLAIRMORE ENTERPRISE

VOL. XIV, NO. 45.

BLAIRMORE, ALBERTA, THURSDAY, NOVEMBER 8, 1923.

\$2.00 YEARLY

NEW SCHOOL ADDITION OPENS

The new two-room addition to the Blairmore Central school, has been completed and is now occupied, thus releasing the old "red" building, which has been purchased by the Tuxis Groups.

The central school building now contains twelve rooms. The latest addition was erected by Contractor E. J. Pozzi, while the plumbing was done by the Morency Plumbing Co.

The season for deer opened in Alberta on November 1st. So far we have heard of but two trophies being landed by local parties.

E. F. WHIST DRIVE

Don't forget the Livingstone Lodge, E. of P., whist drive and social on Friday, November 9th, at 8 p.m., in the I.O.O.F. hall.

Two first prizes—Goose and turkey. Two good second and consolation, and a chance for a monster cake.

GOLF DANCE

The Blairmore Golf Club will hold a dance in the Greenhill Grill on Friday evening, November 9th, at 8 o'clock. Music by Mrs. Altmann's orchestra. Supper arranged by lady golf members.

ALBERTA VOTES

OUT PROHIBITION

Monday's referendum on the liquor question decided that the people of the Province of Alberta are tired of the so-called system of prohibition and are willing to try anything else as an experiment.

Final returns are not yet in, but it is believed the majority for Clause D will not be less than 26,000.

Towns in the 'Crows' Nest. Pass polled up big majorities for Clause D, the total aggregating about 1200 over and above the totals for A, B and C. It is thought that the government will hold a session early in December to decide on legislation for the new system.

WEAR A POFFY SUNDAY

Armistice Day will be celebrated by the local chapter of the I.O.O.F. on Sunday next, November 11th, by the holding of services at the cemeteries in memory of the fallen dead of the Great War.

Following plans, similar to those adopted last year, the public of Blairmore will assemble near the public school at 3 p.m., where a procession will be formed in charge of Capt. W. J. Fisher and J. A. McDonald and Private J. B. Ruid, in the following order:

1. Mayor and ministers.
2. Band.
3. Veterans.
4. Cadets.
5. War Widows.
6. Crows' Nest Chapter, I.O.O.F.
7. David Fraser Chapter, I.O.O.F.
8. Towns People.
9. School Children.

Attendance will first be made at the Catholic cemetery, where graves will be decorated and an address delivered by Rev. Father Cosman. Proceeding to the Protestant cemetery, addresses will be delivered by Revs. W. T. Young and A. M. Noel, and graves will be decorated.

Poppies will be on sale Saturday by members of the I.O.O.F. All citizens are asked to turn out and take part in these services.

ST. LUKE'S CHURCH, BLAIRMORE

Thanksgiving Sunday

Morning Service at 11 a.m. The Right Rev. W. Cyprian Pinkham, D.D., D.C.L., Lord Bishop of Calgary, will visit St. Luke's on Sunday, November 18th, at 11 a.m., and not as announced for November 11th.

W. H. Chappell is spending this week in Calgary, where he is undergoing medical examination. Mr. Chappell will return on Sunday morning.

E. J. Pozzi was a Calgary and Lethbridge visitor this week.

CHANGES IN ALBERTA'S CABINET

EDMONTON, Nov. 5.—The following changes in portfolios of ministers of the Alberta government became effective at one o'clock Saturday, November 3 at which hour the respective ministers took the oath of office before His Honor Lieut.-Governor Brett:

H. Greenfield, formerly provincial treasurer and secretary, becomes minister of municipal affairs.

J. E. Brownlee adds the duties of provincial secretary to those of attorney-general.

George Hoadley becomes minister of public health in addition to his present portfolio of minister of agriculture.

R. G. Reid, formerly minister of municipal affairs, becomes provincial treasurer.

There is no change in portfolios held by Mr. Ross, Mr. Baker or Mr. Smith.

This re-arrangement of portfolios was decided upon in order to relieve the premier, who in addition to the premiership, has been carrying the portfolios of treasurer and secretary, while this arrangement will permit of one minister devoting his whole attention to the treasury and to a close study of the questions of taxation and finance.

TOWN WINS BIG CASE

We understand that the provincial government's appeal against the court's ruling that the province is liable for the upkeep of the Mancini children was not upheld.

This case involves about five thousand dollars and the Town of Blairmore was defended by L. H. Putnam. Particulars of the case will appear in a later issue of The Enterprise.

Never ask an unmarried woman over thirty why she sighs.

RUM DISPUTE SETTLED BETWEEN TWO NATIONS

LONDON, Oct. 31.—The rum-running issue between the American and British governments, which Ambassador Harvey in his conference with British officials repeatedly characterized as a dangerous menace to the existing good relations of the two countries, has been virtually settled.

On the occasion of his formal farewell to the foreign office the retiring ambassador and Foreign Secretary, Lord Curzon, gave final consideration to the terms of a draft treaty which

it is believed will clear up the whole question. The treaty is understood to meet the American desire for the right to search suspected rum-running vessels beyond the three-mile limit, but at the same time gives to Great Britain America's formal affirmation of the three-mile limit as governing British maritime rights generally.

It would also allow British ships to carry liquor into American territorial waters under seal, thus enabling liners under the Union Jack to maintain bars en route and after departing from American ports.

From the British side it only remains for the imperial conference of premiers to place its imprimatur on a document embracing the points of the agreement. It was expected this would be done today, but as the document had not been completed it was postponed until Friday, after which the draft will go to America for ratification by the United States.

At the request of the British, the rights of American authorities to de-

tain British vessels suspected of rum-running will not be confined strictly to 12 miles from shore or any other arbitrary limit, but will probably embrace the distance covered by the broad terms.

"An hour's sailing distance from the American shore, which is reckoned roughly at from 10 to 15 miles.

Thus a "12-mile limit" will not be mentioned in the treaty and the foreign office cannot be charged with surrendering its traditional principle regarding the limitation of territorial waters.

In this connection the British attach much importance to America's formal recognition of the three-mile limit in questions of general maritime rights as being likely to be valuable to them. Only recently soviet Russia agitated for the establishment of a 12-mile limit for all maritime purposes, but with the American government supporting the British stand, it is expected the principle will remain an established international law.

Toilet Articles

We have the largest assortment of Toilet Articles in the district and would be pleased at any time to show them to you. Also a full line of Talcum, Creams, Soaps, Etc.

A full line of School Books, Scribbles, Pens, Pencils, Erasers, Ink, Etc., in stock. Send the children here and we will send them away satisfied with their purchases.

WORLD HAPPENINGS BRIEFLY TOLD

Dr. Freeman Stocker, reputed to be one of the seven greatest machinicians in the world, died in a Baltimore hospital Oct. 30.

Installation of long distance telephone service throughout Mexico is the purpose of a company recently formed in the City of Mexico.

All countries which did not sign the Washington naval treaty have been invited to a meeting under the auspices of the League of Nations to be held January 21.

Dawson has been in direct radio communication with High River, Alberta. It is about 1,400 miles distant. The new government radio stations at Dawson and Mayo both are working well.

At St. John, N.B., several thousand people witnessed the formal opening by Governor-General Byng of the world's largest drydock, the property of the St. John Drydock and Shipbuilding Company.

A wonderful Roman catacomb, correct to the minutest detail, has been found in a corner of the grounds of a Cromwellian house near High Beach, in the heart of Epping Forest, England.

Poor children to the number of 360 have reached Riga, Latvia, from the Ruhr. They will be cared for in institutions and private families, the idea being to give them, for a few months, free of charge, good food and plenty of air.

One of the "old boys" of the Church of England Walford and Strays Society in London has been thanked and decorated by the Chinese Government for his part in saving the lives of 317 native soldiers.

The commune of Erodopole, where Premier Mussolini was born, recently acquired the house of his birthplace and gave it to him. He was present at the ceremony, and the people acclaimed him deliriously.

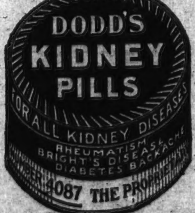

While listening to recently at Cookstown, County Tyrone to wireless news from London, relatives of Colonel William Magill Kennedy, who held an Indian appointment, first heard of his murder on a train near Calcutta.

Pay As You Go

A negro minister discovered two of his parishioners playing cards on a Sunday—and for money.

"Rastus," said the minister, "don't you know it's wrong to play cards on de Sabbath?"

"Yoh, pastor," answered Rastus ruefully, "but believe me, ah's payin' toh mah sin."—Savannah News.

W. N. U. 1497

Who Are the Inventors?

Chance seems to play important part in turning ideas into practical use.

Industry has had to wait. Microwave, for inventions to "turn up." A barber, invented the spinning frame, an undertaker, devised an automatic telephone, and a monk has been held responsible for gunpowder. Cartwright was a clergyman and poet when chance turned his mind to the invention of the power loom. Watt never concerned himself with steam engines until a model of a steam-pump was given him to repair in his capacity of instrument maker to Glasgow College. Eli Whitney was not a cotton grower when he invented the gin, but a young teacher who thought of becoming a lawyer.

Neither Florence nor Singer was vocationally interested in tailoring when they invented their respective sewing machines. Both Fulton and Morse were artists. Westinghouse, the inventor of the alternates, was not a railroad engineer in his youth, but a brilliant mechanic with some knowledge of farm implements and engineering principle. The problem of vulcanizing rubber was solved by Goodyear, an imaginative clerk in a hardware store. The first practical man-carrying flying machine was constructed by the Wright brothers, two bicycle makers.

Maxim, whose machine-gun spurs bullets, almost like water, was a Maine mechanic who knew practically nothing of tactics; and Gatling, his predecessor in wholesale slaughter, was a highly inventive physician. The tanks that proved so deadly in the recent war owed their development to William Gurney (inspired by H. G. Wells) and to an enterprising manufacturer of traction engines; yet the British army was well supplied with capable mechanical engineers. It was not a bloodthirsty general officer who dreamed of blowing up ships with submarines, but a score of gentle civilians, the most conspicuous of whom were Bunsell, Fulton, Holland and Lake.—The Forum.

Mother! Give Sick Baby

"California Fig Syrup"

Harmless Laxative to Clean Liver and Bowels of Baby or Child

Even constipated, bilious, feverish, or sick, children will take "California Fig Syrup" with pleasure. No other laxative is so gentle, so effective, and so safe. It cleans the bowels, soothes the stomach, and starts the liver and bowels acting without griping. Constipation, nervousness, and irritability are relieved. "California Fig Syrup" is a natural, healthy, and safe laxative. It is sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Dollars in China

Chinese money is the most complicated in the world. "We can well believe it when S. C. Cathartes travel writes home that the Chinese have in circulation some 24 different species of dollars, each with a different value and each changing from day to day."—St. Catharines Standard.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good and that he will thrive and be happy and good-natured. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Easiest One

"Pa, do I have to learn music?" "Yes, I insist upon it. But you may choose which instrument you will study."

"Then," said Johnny, "I'll choose the phonograph."

Cornia cripple the feet and make walking a torture, yet sure relief in the shape of Rastus's Corn Remedy is within reach of all.

Should Stand Together. If the English-speaking peoples stand together, march together, and, if necessary, fight together, peace is secure and civilization cannot fail," said Mr. Justice McMillan, of the Supreme Court of Ontario, at an address at Boston at a meeting in celebration of the fifteenth anniversary of Boston University.

Minard's Liniment For Diarrhoea

Diversified Farming

What Has Been Accomplished in North Dakota Within Recent Years

According to an article by Sidney W. Hooper appearing in the Fargo Daily Tribune, diversified farming has been making rapid strides in North Dakota within recent years. The estimated value of the 1923 wheat crop for North Dakota has been placed at \$20,000,000, and the estimated value of animal products "used on farms and sold" during the year is \$25,575,885. These figures indicate that the value of livestock products during the year will slightly exceed the total value of the wheat crop.

How long will it be before the wheat farmers of the prairie provinces of Western Canada awake to the necessity of changing their methods? The uncertainty of the single crop method of farming has been proven over and over again by the individual experiences of farmers who have suffered from hail, drought, frost, grasshoppers, and the many other evils that beset the wheat grower. What North Dakota has been able to do, Manitoba, Saskatchewan and Alberta can do, and probably do, a little easier. Diversified farming is the hope of the ultimate prosperity of the west, and the sooner the change is brought about the better it will be for the future of farming on these prairies.

Liquid Light

Announcement of Discovery That May Revolutionize Our Lighting Systems

From New York comes the announcement of a discovery that may revolutionize our lighting systems. It works. Guido Biondo says he has discovered a radio-active light. In liquid form, that can be poured into a bulb and used for many years without renewal. "It will thus be available for street lighting, for the home, for automobiles and aeroplanes, and for motor cars and bicycles." "Eventually," says Mr. Biondo, "this invention will make coal, fuel, oils and other power a thing of the past. It is far superior and more effective than electric light, and will probably last ten or fifteen years without attention." The inventor says he first produced the luminous liquid in 1909, and this gave a light practically undiminished for more than seven years; then, unfortunately, the bulb containing the liquid was broken. "There are a number of radio-active substances that are soluble and continue to give off their radiations, but hitherto none of them have been luminous."

If Tormented With Corns Use Good Old "Putnam's"

It's really a simple thing to remove your corns, and without pain, if you apply Putnam's Painless Corn Remedy. It acts like magic, lifts out the corn, root and branch, leaves the skin smooth as silk. No failure with "Putnam's," 25c everywhere.

Noxious Weed Menace

Onus for Eradication of Noxious Weeds is Upon Municipalities

While emphasizing the necessity of the most active campaign to lessen the menace of noxious weeds in Alberta, Hon. George Howland, Minister of Agriculture, in an address before the convention of the Alberta Association of Municipal Districts, declared that the onus for eradication was primarily on the municipalities and individuals, and unless a representative body like the municipal association directly urged the government to renew the work of weed inspection no appropriation for the purpose was likely to be endorsed by the Legislature. The provincial inspection was discontinued last spring.

No Risk

Rastus and Mose were having a heated argument. In reply to some remark of Rastus, Mose said—

"Guess, I know, niggah! Don't you think I got any brains?"

"Nigah!" Rastus replied. "Nigah, I brains were dynamite you couldn't blow off your hat!"

MINARD'S "KING OF PAIN" LINIMENT

Natural Resources Bulletin

Interesting Vital Statistics Dealing With Prairie Provinces The Natural Resources Intelligence Service of the Department of the Interior, at Ottawa says:

Of all the many natural resources which the prairie provinces possess the present is their people. The natural increase from births in Canada's best source of population, and the growth and maintenance of this increase is her first duty.

The Dominion Bureau of Statistics has just issued a report of vital statistics for 1921 which gives some interesting figures on the birth-rate of the prairie provinces. The total number of births was 75,532, of which Manitoba had 15,478, Saskatchewan 22,493 and Alberta 16,561. There was an excess of male births over female of 1,604 in the three provinces. This, however, was materially reduced during the year by the larger number of deaths among male infants, there being 2,734 male deaths, and 2,014 female, or a difference of 720, leaving a net increase of males for the year of 884. The excess of males was still reduced before the age of 5 years was reached by 114, and before the tenth year the net increase of male children was reduced to 745; a net greater mortality of male children under ten years of age of 859. There is considerable satisfaction to be gained from the fact that the infant mortality rate in each province was much less than that of the previous year. Manitoba's rate for 1921 being 32 per 1,000 births as compared with 102.7 in 1920; Saskatchewan 80.6 in 1921 and 85.7 in 1920; and Alberta 84 in 1921 and 93.5 in 1920.

Lame Backs Mended In One Night

THROBBING PAINS AT BASE OF SPINE EASILY OVERCOME

Weak Kidneys Cause the Trouble A most wonderful kidney medicine Hamilton's Pills. They contain the juices of certain herbs which soothe and stimulate the kidneys; it's a pleasure to use Dr. Hamilton's Pills. They relieve after the first dose, give you a new feeling entirely, remove the dull, throbbing backache, and vague pains through the muscles and joints. To thoroughly cleanse and regulate your system, use Dr. Hamilton's Pills. 25c at all dealers.

Why He Stopped

"He thought McMill had taken up golf. He doesn't seem to be playing now." "Yes, he started; but he has given it up." He lost his ball.

An Oil that is Priced Everywhere—Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and is now known and prized throughout its continent. There is nothing equal to it.

B.C. Apples Capture Prize

Canadian Apples Adjudged the Empire Champion at Manchester

The Canadian McIntosh Red Apple is the champion dessert apple in the British Empire, so the judges at the Empire Fruit Show, which opened at Manchester recently, adjudged, so far as the Manchester Exhibition is concerned at Cox Orange Pippins from British Columbia, on the whole are the best of the 16 exhibitors from overseas and winners thereof of the Daily Mail's 50 guineas cup.

Girls' Hair Grows Thick and Beautiful

25-Cent "Dandrin" Does Wonders for Lifeless, Neglected Hair

A glossy mass of luxuriant hair full of gloss, lustre and life shortly follows a genuine toning up of neglected scalps with dependable "Dandrin."

Putting hair, whether scalp and the dandruff is corrected immediately. This dry, wispy or fading hair is quickly invigorated, taking on new strength, color and youthful beauty. "Dandrin" is delightful on the hair; a refreshing, stimulating tonic—not sticky or greasy. Any drug store.

Bumps Explain Nothing

Judging character by bumps on the head or face, as is a delusion, according to the psychological department of the Northwestern University. "An individual's anatomy is not an index to his character," state the professors. "The man with a square jaw may be as pious as a rabbit and (fake) stock may be sold to a person with a bump of caution as big as an egg.—Vancouver Province.

Excellent Christmas Service To The Old Country

The Canadian Pacific have made available a fleet of superb steamships and an unusual number of sailings for Christmas travel to the Old Country. In connection with these sailings special tourist sleepers are being operated from Edmonton, Saskatoon, Calgary, Moose Jaw, Regina and Winnipeg, direct to the ship's side at West St. John, thus giving a through service with the only change or transfer being from train to steamer.

The December sailings for which these cars will be operated are: S.S. "Montclair," December 7th, to Liverpool; S.S. "Mellita," December 13th, to Southampton; S.S. "Montclair," December 14th, to Liverpool; and S.S. "Mellita," December 15th, to Glasgow.

In addition to the through tourist sleepers, a special train will also be operated for the sailing of the S.S. "Montclair," December 14th. This train will leave Winnipeg 5:50 a.m. Tuesday, December 14th. Special cars from western points will be attached to this train for operation through.

Booking should be arranged early in order to secure the best accommodations, and any Canadian Pacific Agent can make full arrangements. 32-23

Do not suffer another day with PILES

Conquers Asthma. To be relieved from the terrible suffocating due to asthma is a great thing, but to be safeguarded for the future is even greater. Not only does Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systematic in-haling of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

Is Happy In Prison

Freedom Does Not Attract Man in Dartmoor Jail

There is a convict in Dartmoor Prison, London, who does not want to leave. For 20 years he has been at the prison, and a little while ago the chaplain wanted to help forward his release.

The man, however, did not wish it. For some time he has worked on the farm tending the horses, and he has become so fond of them that the world he left behind so long ago has no attraction for him.

When the question of his release was raised he asked that he might have a week's holiday to visit his sister, and then return to the prison to his farm work. That, of course, was impossible.

When the old lady saw the magician cover a newspaper with a heavy flannel cloth and read through it, she rose in her seat and said, "I'm going home, this ain't no place for a lady in a thin calico dress."

When the old lady saw the magician cover a newspaper with a heavy flannel cloth and read through it, she rose in her seat and said, "I'm going home, this ain't no place for a lady in a thin calico dress."

COWLEY HAPPENINGS

John Kemmis is a Calgary visitor.

R. B. Harrison, of Blairmore, spent a few days here this week.

Mrs. Hamilton, of Beaver Mines, was a recent Cowley visitor.

Walter Knight, of Calgary, was a visitor here the fore part of the week.

Albert Cleland's family are recovering from diphtheria. We are glad to say.

A dance was held in Tustian's hall on Saturday night. Music was furnished by local talent.

An old-fashioned quilting bee was held at the home of Mrs. A. Swart by the Ladies' Aid this week.

We regret to say that Mrs. Howitt, of North Fork, who has been ailing for some time, is in a Lethbridge hospital in a serious condition.

A son was born to Mr. and Mrs. Gaston Rego. When the infant was only a few days old, the first baby, little Charlie, around two years old, took suddenly ill and died. Interment took place in Cowley cemetery on Monday. We join in sympathy with the bereaved family.

CLARESHOLM SCHOOL OF AGRICULTURE GIVES OPENING DANCE

The annual opening of the Clareholm School of Agriculture will be held on Friday, November 23rd. On that evening by the school staff and entertain the registered students, ex-students, and immediate friends of the school.

This year the entertainment will take the form of a programme dance with invitations issued to outsiders. Students and ex-students are cordially invited upon the understanding that they are always welcome at any school function without invitations.

As it is impossible to obtain a complete mailing list, anyone who may have been overlooked should communicate with the principal of the school and the matter will receive immediate consideration.

The guests are requested to be at the auditorium at 9 p.m. the evening of the dance, when the programme will be given out.

Mrs. L. H. Putnam returned the latter part of last week from Nova Scotia, via Calgary. Mrs. Putnam has been away for several months, visiting her old home and relatives and friends in the Maritime Provinces.

THE REVOLT AGAINST AUTHORITY

At the annual convention of the North-western Association of Sheriffs and Police held at Vancouver last July, Commissioner Bryan, A.P.E., read a paper dealing with the above topic which deserves the thoughtful consideration of all law-abiding citizens. Unfortunately, only a few extracts are possible here.

Commissioner Bryan opened with a quotation from William Penn, who once said "That government is free to the people under it where the laws rule and the people are a party to those laws and all the rest is tyranny, oligarchy and confusion." Conceding that lawlessness is not a novel phenomenon, he pointed out that the present time seemed to be characterized by an exceptional revolt against the authority of law, and proceeded as follows:

Shown in Many Spheres

"Let us note the fact that this spirit of revolt against authority is not confined to the political state and therefore its causes lie beyond that sphere of human action. Human life is governed by all manner of man-made laws—laws of art, of social intercourse, of literature, music, business—all evolved by custom, and imposed by the collective will of society. Here we find the same revolt against tradition and authority. In music, its fundamental canons have been thrown aside and discord has been substituted for harmony as its ideal. Its culmination—jazz—is a musical crime. If the forms of dancing and music are symptomatic of an age, what shall be said of the universal craze to indulge in crude and clumsy dancing to the vile discords of so-called jazz music. In the plastic arts, the laws of form and criteria of beauty have been swept aside by the futurists, Cubists and other aesthetic Bohemians. In poetry, where beauty of rhythm, melody of sound, nobility of thought were once regarded as the true tests, we now have in freak forms of poetry the exaltation of the grotesque and brutal. In commerce, the revolt it against the parity of standards and the integrity of business morals. We can question that this is preeminently the age of the sham and the counterfeit? Science is prostituted to deceive the public, by cloaking the deterioration in quality of merchandise. The blatant medium of advertising has become so mendacious as to defeat its own purpose. In the greater sphere of social life we find the same revolt against the institutions which have the sanctions of the past. Social laws which mark the decent restraint of print, speech and dress, have in recent decades been increasingly disregarded."

In the Political Sphere
"The challenge to authority is universal and not confined to that of the political state in the confines of the state, and the second, an unwritten constitution to him of higher authority under which he believes no law is obligatory which he regards in excess of the true powers of government. Of this latter spirit, the widespread violation of the prohibition law all over the continent is a familiar illustration. A race of individuals obey reluctantly, when they obey at all, any laws which they regard as unreasonable or vexatious. Indeed, they are increasingly opposed to any law which affects their selfish interests. Men talk loudly of their rights, but too rarely of their duties. We must seek some widespread change in social conditions, and the change, therefore, must be of environment."

"My object in writing this paper is to bring to your attention what, in my opinion, are some of the causes which have and are bringing about this spirit of revolt against lawful authority. There are many palliatives for the evils discussed in this paper. To rekindle in man and women the love of work for work's sake and the spirit of discipline, which the last sense of human solidarity once inspired, would do much to solve the problem, for work is the greatest moral force in the world, but I must frankly admit that I have not the qualifications to discuss the solution of this very grave problem."

my opinion, are some of the causes which have and are bringing about this spirit of revolt against lawful authority. There are many palliatives for the evils discussed in this paper. To rekindle in man and women the love of work for work's sake and the spirit of discipline, which the last sense of human solidarity once inspired, would do much to solve the problem, for work is the greatest moral force in the world, but I must frankly admit that I have not the qualifications to discuss the solution of this very grave problem."

JAPANESE EARTHQUAKE AND FIRE

One of the most thrilling and instructive stories written in recent years is contained in the Official Report of Captain S. Robinson, R.N.R., commander of the Canadian Pacific S.S. "Empress of Australia," on the Japanese earthquake, the fire and subsequent relief operations issued in booklet form by the Canadian Pacific Steamships, Ltd.

In the vernacular of the bridge, Captain Robinson relates the incidents of the disaster as they were brought to his notice, from noon of Saturday, September 1st, when, as his ship was preparing to leave the dock at Yokohama, the first earthquake took place, until September 12th, when, after encountering innumerable difficulties—a fouled propeller, a sea of burning oil—and serving as a hospital and relief ship for the earthquake sufferers, the "Australia" left the stricken Orient for Vancouver.

Stories of Captain Robinson's heroism, upholding seamanship with which he upheld the traditions of the Royal Navy Reserve, and consideration for the suffering ones at great personal cost and effort have been accorded a little of the publicity which is their due, but the Captain's report is modest in the extreme, and although one can glean from it some of the great problems which presented themselves to him, the "hero of the disaster," reports only the good work executed by this identified with relief work. It is therefore fitting that the company should include in the booklet letters addressed to the Captain by the refugees, passengers on the ship and the American relief committee in recognition and appreciation of his skilful handling of the many critical situations which presented themselves.

The report is an historical document, recording the greatest natural disaster known to man, and certainly no library will be complete without a copy of the booklet which can be obtained without charge from the Canadian Pacific Offices at Montreal.

A "ROAST" TO THE KAISER

Here's to the Kaiser—the limburger cheese,
May the swell of his head go down to his knees.
May he break his darn neck on the Hindenburg line,
And go to hell croaking "The Wacht on the Rhine."

—Cont. by M. J.

R. I. P.
(Requiescat in Pace)

H Stands for HOME Bank so merry and gay,
O Means the OILY old promise to pay.

M Means the MONEY that's squandered away,
E Means the ELEGANT Gall.

B Stands for BUSINESS of lending the dough,
A For the AWFUL smooth way it can go.

N Stands for NOTHING that's left of the show,
K Is the KIBOISH of all.

DISTRIBUTOR McLAUGHLIN AND FORD CARS FOR
THE CROWS' NEST PASS.

James Turnbull is nursing a fractured wrist.

W. Archer sustained some injuries the early part of the week, as a result of which he is a patient in the local hospital.

Forty-one soft drink places and saloons were closed for a year by Judge Cliffs in the Chicago Federal Court on October 10-11.

Freight conductor William Haslem, of Cranbrook, was killed near Yakk last week end when he fell beneath the wheels of a moving train. Haslem was an old timer and well known. He was a member of the I.O.O.F. Interment took place at Cranbrook yesterday afternoon.

Every business concern in the Crows' Nest Pass should be represented in the advertising columns of the 1923 sixteen-page Christmas Number of The Blairmore Enterprise. This issue will appear on December 20th and will be the biggest and best ever.

The Prohibitionists claimed that European whiskey manufacturers' money was behind the Modernistists campaign, but it is a fact that the Prohibitionists imported men from all over the world to come to Albert and try to tell Albertans how to run the province. Their efforts were not as effective as they would have been had the dregs had men who understood conditions in the province doing the talking instead of the outsiders.

The Sydney grand jury returned a true bill in the case of John McDonald, of Toronto, charged with uttering sedition at Sydney Mines some months ago. The same jury returned "no bill" in the case of John MacLeod, charged with uttering sedition at Glace Bay, Trial of John R. Hue, reporter for the Maritime Labor Herald, on a charge of unlawful assembly, has been forwarded to the next term of the Supreme Court.

The Coleman Hardware Co., of Coleman, have what is believed to be the finest window display ever seen in the Crows' Nest Pass. Mr. George Sneed, the manager and artist was recently a prize-winner in a window-dress competition, open to all the hardware and furniture stores in Alberta. If our judgment amounts to anything, we feel sure that he is in line for another first prize this time. If you are looking for a good carpet or conglomera rug, we would suggest that you take a look in at the Coleman Hardware furniture department, where a splendid stock is on display.

A system of education by mail for those who live in remote rural districts out of reach of rural schools is being prepared by Hon. Perron Baker, Minister of Education for Alberta, to go into effect this month. The working plan has already been drawn up to run through the winter to the end of the school year. It is expected that from 20 to 40 lessons will be given in the case of each applicant for the service.

Of 600 girls brought to Saskatchewan from the United States in 1920 to 1921, only six have returned overseas, and of the sum of \$45,436.16 the full and true balance of \$45,380.96 had been repaid up to June 16th, 400 having repaid the full and true balance of \$45,436.17. The girls came to positions as household over-seers.

"THE WONDERFUL HEROINE"

A subject of conversation throughout Canada at the present time is the identity of "The Wonderful Heroine," whose amazing life story was published in the Family Herald and Weekly Star of Montreal. Living under appalling conditions, handicapped more often than aided by her great beauty, this wonder woman strived and achieved where ten million others might fail.

It is now announced that a beautiful painting of "The Wonderful Heroine" has been made, and a reproduction in true colors, size 18 x 24 inches will be given free to subscribers of the Family Herald and Weekly Star of Montreal, that is to those who subscribe in time.

Here and There

The season for moose hunting opened in New Brunswick October 1st, and the chief game warden expects one of the best seasons in the history of the province. Game is reported plentiful in all sections.

The drydock at St. John, New Brunswick, is now an accomplished work. It was opened October 29th. The largest drydock in North America, it is capable of accommodating the largest ships of the British Navy.

Speaking in London, England, on October 11, Sir Lomer Gouin, Canadian Minister of Justice, stated that Canada's exports per capita were three times more than those of the United States and her imports per capita four times more. The British Empire was Canada's second best customer.

There are more telephones in Canada per 100 population than in any other country except the United States. This is shown in a report issued by the Dominion Bureau of Statistics, in which the proportion of telephones per 100 population is set at 10.53.

A dispatch from London states that a number of cattle from the Prince of Wales' ranch was included in a large consignment of Canadian cattle which reached Cardiff recently. There appeared to be a keen demand for the consignment, and 150 head were despatched to Norfolk farms by special train.

Canadian Pacific Railway figures show a remarkable increase in the shipment of grain for the ten week days preceding and including October 15th, this year, as compared with 1922. During the ten days there were loaded for shipment over the whole system a total of 16,106 cars, at the rate of 2,560,000 bushels a day, in comparison with 12,000 cars at 1,765,000 bushels a day last year.

It is expected that by the end of the present season the track-laying "no bill" in the case of John MacLeod, charged with uttering sedition at Glace Bay, Trial of John R. Hue, reporter for the Maritime Labor Herald, on a charge of unlawful assembly, has been forwarded to the next term of the Supreme Court.

MOODIE ASKS FOR BIG DAMAGES IN SUIT

It is expected that the action brought against Sir Donald Mann, Sir William Mackenzie, V. Burns and Rosedale Coal Company, the Trusts and Guarantee and R. G. Thompson, involving more than \$300,000 by Frank Moodie, of Calgary, now being heard there before Mr. Justice W. C. Simmon, will last several days. The action is a most involved one and will necessitate calling several witnesses to testify, before the jury which is hearing the case.

A. A. McGillivray, K.C. and S. J. Helman are acting for the plaintiff Moodie, and J. E. A. Macleod, K. C., for P. Burns and Arthur L. Smith, K. C., for the remainder of the defendants.

J. F. M. Moodie is suing on behalf of other shareholders of the Rosedale Coal and Clay Products, Ltd., and the Rosedale Coal Company, except those shareholders named in the statement of claim as defendants. He is asking for a declaration of the court that certain advances amounting to more than \$300,000 made by Mackenzie and Mann to the Rosedale Coal and Clay Products Company, Ltd., be treated as a mortgage against the assets of the

company, that secret profits which Mr. Moodie alleges were made by the Mackenzie & Mann interests under various agreements between himself and those interests be ascertained and refunded to the original company, that he be paid back salary amounting to \$34,000, which he claims was earned by him as manager of the original company; for costs of work subsequent to 1919; that an agreement alleged to have been made between the plaintiff and a representative of the Mackenzie and Mann interests be set aside.

IN LAPLAND.

A maiden boarded a midnight car, And fiercely grasped a strap. And every time they hit a curve She sat in a different lap. The hills grew higher, the turns grew worse,

At last she gasped with a smile— "Will someone kindly tell me just How many laps to the mile?"

Albertans have adopted a new parody "Yes, Well Have No Prohibition."

Forty-two miners were killed in an explosion which occurred in a West Virginia mine on Tuesday morning.

Grade IX.

Enrolment 26, teaching days 23, aggregate days' attendance 560, average 23.21, percentage 96.96, perfect in attendance 18.

M. T. Davis, teacher.

Grades X, XI and XII.

Enrolment 37, teaching days 23, aggregate days' attendance 946, average 36.78, percentage 94.40.

Total enrolment of school 480.

D. M. J. Conway, principal.

ONLY A POPPY

Only a poppy on Flanders' Fields, Only a single flower, It stands today by a ruined grave At the mouth of a pill-box bower.

Planted there by the hand of God It stands there meek and lowly, Drenched with the flood of heroes' blood.

An emblem mute and holy.

Beneath its roots the dead men lie, Their slightest eyes upturning, They were laid to rest on the cold earth's breast

With naught but a comrade's yearning.

Yet though they died the strife goes on With warfare sad and gory. While o'er their graves the poppy waves, Memories of their glory.

The poppies nod and dip and bloom Above that sacred sod Where heroes fought in a cause that's wrought On the tablets of their God.

We come again, those hero men, Those stalwarts strong and brave, And the grasses sigh as we rustle by Over each unknown grave.

Only a poppy, yes, I know, Only a simple bloom That the Lord has sent for a monument To those heroes here in their tomb.

—Ex. Corp'l. Llewellyn P. Beale.

Six persons were killed and seven wounded in Oregon during the hunting season that closed October 31st.

The contract between the Gladstone Local Union, U.M.W. of A., Fernie,

and Drs. Kelman (father and son), formerly of Loughheed, Alberta, was signed last week, the new doctors entering upon their duties on Thursday, November 1st. The Canadian Temperance Hotel building has been converted into a hospital.

A Thanksgiving Day Review

Five years have elapsed since the signing of the Armistice brought an end to actual hostilities in the Great War, and a backward glance over this momentous half of a decade discloses that while the high hopes then entertained for the immediate future of the world have been far from realized, substantial progress has been made in the direction of reclaiming civilization from the devastation and almost ruin to the verge of which it was brought by the great world upheaval of 1914-1918.

Germany, it is true, is in a condition of disorganization perilously close to a state of chaos, but latest reports seem to indicate the failure of the attempts made to break up the German republic into a group of separate states. German money is worthless and German credit gone. Ten years ago one of the great powers of the world, highly organized and prosperous, Germany today is impotent. Such is the price she is paying for her war and the attempt to achieve mastery by world domination.

Russia is recovering to some extent, disorder and bloodshed are disappearing and real efforts at permanent reconstruction are in evidence now that the Soviet leaders have abandoned as hopeless their visionary plan of extreme communism.

Austria, through the efforts of the League of Nations, is re-establishing herself and in the past two years has experienced a wonderful recovery. With the war lords out of the way, and with the people anxiously striving to develop their country in the arts of peaceful industry, the future of Austria is bright with promise.

During the year war which threatened between Italy and Greece, and might easily have developed into another world conflagration, was happily avoided, and the indications were that the League of Nations, had lost prestige through its handling of this crisis, the final outcome has been to strengthen world opinion that the League is an important and really vital factor in controlling and directing international relations in the world today.

Ireland has passed through its reign of terrorism, and the Free State Government has received the strong approval and support of the Irish people in a general election. Today the Irish Free State occupies its proper place among the sister nations of the great British Commonwealth of nations and has been admitted a member of the League of Nations. Its representatives are engaged in common with those from the Mother Country and overseas Dominions in working out the problems common to all and in the solution of which benefit will be derived by all.

Whatever may be the future of the League of Nations, it is abundantly clear that the British League of Nations, as represented by the Imperial Conference now sitting in London, is one of the greatest factors making for world betterment and human progress and happiness. United in time of war, the Empire is greater today than the loose confederation of a group of self-governing nations just as closely united in the development of the arts of peace and good government.

Another attempt to solve the reparations and economic problems between Germany and the Allies is to be made at the instigation of the British Government, and with the United States participating. France has only agreed with important point. The trade of the Dominion has been improved, much that was expected of it. Nevertheless, the hope is entertained that as a result of its deliberations very real progress towards a solution of these vexatious questions will be made.

Economic conditions in Canada have steadily improved during the past year. Immigration has more than doubled, and unemployment reduced almost to the vanishing point. The trade of the Dominion has been improved, much that was expected of it. Nevertheless, the hope is entertained that as a result of its deliberations very real progress towards a solution of these vexatious questions will be made.

This betterment is reflected in a subsidence of that unrest which in its sweep throughout the world did not leave Canada unaffected and which found open expression in elections in an apparent determination on the part of people to effect existing conditions. Recent by-elections in four out of the nine Provinces have resulted in the return of supporters of the existing Governments, quite apart from their political complexion, thereby revealing a changed attitude on the part of the voter, and an indication that the people are beginning to realize that men entrusted with the responsibilities of office in Canada are doing their best under trying and difficult conditions. The outlook generally is much improved.

This betterment is reflected in a subsidence of that unrest which in its sweep throughout the world did not leave Canada unaffected and which found open expression in elections in an apparent determination on the part of people to effect existing conditions. Recent by-elections in four out of the nine Provinces have resulted in the return of supporters of the existing Governments, quite apart from their political complexion, thereby revealing a changed attitude on the part of the voter, and an indication that the people are beginning to realize that men entrusted with the responsibilities of office in Canada are doing their best under trying and difficult conditions. The outlook generally is much improved.

While Canada still has a long way to go to reach pre-war conditions, and largely so because of its heavy war debt, the people of the Dominion on this Armistice anniversary and Thanksgiving Day have substantial reasons for thankfulness that their lot is cast in Canada.

A Hot Return

I'm so sorry I could not come to your reception yesterday.
"Dear me, wasn't you there?"
"Why, of course I was—how very stupid of me—I quite forgot."

Policeman—"What do you do?"

Bystander—"Nothing."
Policeman—"You're not a congressman, are you?"
Bystander—"No."
Policeman—"Then come along."

Ten-Foot Blinders

A ten-foot blinder driven by a shaft from the tractor which pulls it was demonstrated on a farm near Sutherland, Sask. The machine cuts a swath 10 feet wide and no matter at what speed the outfit is operated the tractor operates the blinding at a uniform rate. The machine averages from 2 to 2½ acres an hour and the harrow ties about 40 sheaves a minute.

Canadian Bacon Wins

Canadian bacon won first prize at the National Farmers' Dairy Show in London, Eng. In the class for colonial bacon, where all the dominions were represented by exhibitors, the Canadian bacon won, first prize going to Gunnar Ltd., Toronto.

The Wainwright Buffalo

Herd Increases Rapidly Under Government Protection and Numbered Over 8,000 Animals this Fall

Bison Americanus was due for a surprise this fall. After roaming the plains in the district of Wainwright, Alberta, within the confines of a high, strongly constructed fence, where he reigned as monarch of all he surveyed with little interference from human beings, Bison Americanus has become again an article of commerce. The reason was that there were too many of him and even a benevolent government cannot sustain more buffalo than it has its feed for.

At Wainwright on the Canadian National Railways east of Edmonton, the government buffalo park has been the mecca of many tourists who have stopped off between trains to go out and look over the largest remaining buffalo herd. The visitors generally saw only an exhibition herd, but looking about in an enclosure over one hundred square miles in extent was a far greater herd which was unapproachable by any but the herders themselves. For from 716 head of animals, the initial purchase of the Canadian Government in 1907, the herd has increased until this year there were 8,300 of the animals; too many to be wintered, and it was decided to kill off 2,000 head.

The most hides and heads are all to be marketed, and this buffalo steaks and tongues will again be among the delicacies offered to Canadians and Americans this fall.

"There is a This Shakespearean stage may be applied to the countries and animals as well as to individuals. In proof of this assertion there can be cited the case of the Bison Americanus or, as it is commonly called, the buffalo. The story of how this large figure of North American history was saved from extinction by timely action on the part of the Canadian Government forms an interesting paragraph in Canadian history.

CAUSE OF BACKACHES

Every muscle in the body needs a supply of rich, red blood in proportion to the work it does. The muscles of the back are no exception. When the blood is thin they lack nourishment and ache. The result is a sensation of pain in these muscles.

Many people are frightened into believing that backaches are due to kidney trouble, but the best medical authorities agree that backache is a kidney ailment. The kidneys are a pair of glands, each about the size of a fist, located in the back, one on each side of the spine. They filter the blood and remove the waste products. If they are not working properly, the blood becomes impure and the body suffers. Backaches are often a sign of kidney trouble. The kidneys are a pair of glands, each about the size of a fist, located in the back, one on each side of the spine. They filter the blood and remove the waste products. If they are not working properly, the blood becomes impure and the body suffers. Backaches are often a sign of kidney trouble.

"Why did you leave your last place?" asked the lady of the would-be cook. "I just could not stand the way the master and the Mrs. used to quarrel. It was all the time. When it was not me and him it was me and her."

An Oil for All Men—"The sailor, the soldier, the fisherman, the lumberman, the outdoor laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, rub due liniment and overcome rheumatism. It is excellent. Therefore, it should have a place in all home medicine boxes and be amongst those taken on a journey."

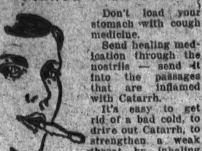

Giving Him First Chance

"You've got plenty of nerve. The idea of stealing my chickens and then trying to sell them to me."
"Well, nah, I thought you'd pay a better price for chickens you'd raised yourself. You'd know what you're buying."—Boston Transcript.

Wretchedness OF Constipation

Can Be Quickly Overcome by CARTER'S LITTLE LIVER PILLS. Fully rego...
CARTER'S LITTLE LIVER PILLS
Small Pills—Small Dose—Small Price

Is Your Nose Stuffed With Cold?

Don't load your stomach with cold medicine. Send healing medicine to the nostrils—send it into the passages that are inflamed with Catarrh. It's easy to get rid of a bad cold, to drive out Catarrh, to strengthen a weak throat by inhaling Catarrhoxone. Get Catarrhoxone from your druggist today. By using it frequently you keep the air passages free from germs and thereby prevent many a bad cold. Two months' treatment at the small dose 50c. Refuse a substitute. By mail from The Catarrhoxone Co., Montreal.

French Prince Must Pay

Landlord Case Election Order for Non-Payment of Rent
After protracted litigation, Prince Ellis of Bourbon de Parme's Paris landlady, Mrs. Robert, has obtained an ejectment order against him. His case for non-payment of rent for his apartment in the Avenue Bois de Boulogne. The court has also ordered an inventory of the valuable furniture and art objects in the house preparatory to selling them to satisfy the debt.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother's Friend. Worm Exterminator.

Empire Population

Badly Distributed
British Isles Crowded and Dominions Have Room to Spare

"The most obvious fact about the British Commonwealth today is the bad distribution of population within it," says the Round Table. "The population of Great Britain, according to the census of 1921, was 42,767,530, inhabiting an area of 38,947 square miles. According to the same census there are about 1,155,000 unemployed in the country, partly because of the falling off in European trade, partly because, despite 765,511 Englishmen, Scotsmen, Irishmen and Welshmen killed during the war, the increase of population in this island has risen."

"Great Britain is obviously overpopulated. On the other hand, there is an equally obvious shortage of population in the Dominions. Canada, with an area of 3,786,000 square miles, has a population of 3,758,485. Australia, with an area of 2,974,881 square miles, has a population of 5,436,734. South Africa, with an area of 2,974,881 square miles, has a population of 1,238,829 and a colored population of 3,617,042. New Zealand, with an area of 103,568 square miles, has a population of 1,218,912."

Did Not Work For Money

Electrical Wizard of Schenectady Could Have Made Millions, But Devoted His Life to Service

It was learned that the late Dr. Charles Steinmetz, who died at Schenectady, N.Y., recently, left an estate consisting of only a 1912 electric automobile and a \$1,000 insurance policy. The same man, it is said, had been employed by General Electric Company. The wizard who controlled electrical storms, probably could have made millions, but apparently he drew no more salary from the company than sufficient for the necessities of life.

"I do not wish to work for money," Dr. Steinmetz once said to his employers. "Let me draw it as I wish and if I draw too much tell me. If I think of money I will not work as well. I will build me a house and laboratory. That is all I want."

Canada's Envious Position

Confidence is Restored and a Steady Return to Prosperity is Looked For

There is every reason why Canadian people should be hopeful at this time. The west has harvested, perhaps, the largest crop in its history, and Canada is generally prosperous. The burden of debt represented by war expenditures, merchant marine, railway obligations, war and victory loans, necessitating the imposition of new taxes, must be borne, but good progress has been made. Confidence has been restored and there is a steady return to prosperity in every department of industry. At such a juncture nothing could be more untimely than the shattering of public confidence.—Montreal Examiner.

Bella—"Do you believe in love at first sight, dearie?"
Dona—"I certainly don't. The first time I saw Jack Brown was in a swell limousine and I fell desperately in love with him. I found out later he had only hired the car."

Minard's Liniment for Coughs

W. N. U. 1497

Are Important Events Pending?

Year's Figures Totalling Fifteen Have Shown Interesting Happenings
For those who believe in signs and portents, the sum of this year's figures, 1923-15—may afford some importance, both at home and abroad, are pending. The last time the total of the year's figures amounted to 15 was eight years ago, and none of us are likely to forget 1914. The year 1905 also saw happenings of world-wide interest, including payment by Russia to England of an indemnity for the North Sea "incident." In 1906 both Pitt and Fox died; 1815 saw Waterloo; in 1824 Byron died; and in 1851 the Great Exhibition was held. What we wonder, will be the outstanding feature of 1923?—Montreal Gazette.

Use Marks For Wallpaper

German Police Confiscate Tons of Paper Currency at Dutch Frontier

Nearly three tons of paper marks have been confiscated at the Dutch frontier, by German officials. The marks, totaling about 100,000, were being a big trade in exporting notes to Holland for advertising purposes. The Dutch traders buy them in bulk to use as wallpaper and also for insertion in cigarette packets, thus enabling the dealers to attract sales by advertising this package contains a one-million mark note. Such a practice has been in use for a long time and the police are now trying to stop it.

Joint Soreness Subdued, Swellings Quickly Reduced

Wonderful Results From Rubbing The Sore Parts With

NERVILINE

"My testimony should convince anyone that 'Nerviline' is a splendid remedy, thus enabling the dealers to attract sales by advertising this package contains a one-million mark note. Such a practice has been in use for a long time and the police are now trying to stop it."

For Rheumatic pains, Lumbago, Sciatica, you will get lasting satisfaction from a 25c bottle of Nerviline. Sold everywhere.

Perfect Manhood Is Found In Australia

Archbishop Says People Developing Physically and Intellectually
Archbishop Duhig, in a public address delivered on his return to Queensland, after visiting America, said that as a result of very careful observation on his part, and on the part of others, he was convinced that the Australian people were developing physically and intellectually a race of giants.

To those who only saw life in Australian clubs, said the Archbishop, the truth of this statement might not be apparent, but it soon became intelligible to those who visited the country districts and saw the youths and maidens outlasting their parents physically and intellectually, growing big and brave on the broad acres which were their native habitat, breathing the free, fresh air of an atmosphere so pure that one actually revolved in it. That was the raw material offered to Australia from which to build up a great nation.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on in Miller's Worm Pills. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

It might be remembered that churches, on Sunday, never get too close to the edge of the road and turn over into a ditch.

"Mamma, do angels have wings?"
"Certainly." "Then why did they want a ladder to get down to Jacob?"

"I Was Terribly Weak After Baby Was Born"

Mrs. H. McClure, Norwood, Ont., writes:

"After my baby was born, I was terribly weak and run down, with pains across my back. I had heard so much of Dr. Chase's Nerve Food that I decided to try it. Three boxes proved enough to make me quite strong and well again. I also used Dr. Chase's Ointment for a rash which broke out on the baby, and the rash disappeared completely in a short time."

U.S. AND BRITAIN CAN PRESERVE PEACE OF WORLD

New York.—Conviction that the future of civilization depends on the fate of Great Britain and the United States flying side by side in comradeship was expressed by Right Hon. David Lloyd George in an address before the Lotus Club. The two countries, he declared, would benefit the world by adopting a policy based upon mutual understanding, because, he asserted, they never would unite upon any policy of aggression or of oppression against neighbors.

Introducing the guest of honor, Dr. Butler, president, referred to the warmth of Mr. Lloyd George's welcome in the United States and Canada. Deep down in the hearts of the people of the United States, he added, is an abiding faith in his integrity and high purpose and the love of liberty of Great Britain and her Empire.

Mr. Lloyd George, in his address mentioned some of his experiences in this country and remarked: "You referred here to that gallant Dominion, which is your neighbor, and I am grateful for the reference you made to the splendid help which they gave us voluntarily in the Great War. "If we had pursued the course which you suppressed so effectively in the War of Independence I am sure that not merely would we not have received assistance from Canada, none from Australia, New Zealand, South Africa nor from India; I say more than that, that if we pursued the course we afterwards pursued with respect to Ireland, we would have had just as effective assistance from Ireland as we got from Canada and Australia."

"You referred to Canada as your neighbor and as your friend, I hope you will extend that, I hope you will think of the great commonwealth as a whole as your friend. I am perfectly convinced that the future of civilization depends on those flags (British and United States) flying side by side in comradeship."

"With you, and ourselves together standing for the cause of peace, we believe the future of humanity is safe."

Hong Kong Inundated By Heavy Rainstorm

Force of Water Lifted Up Parts of Macadamized Road.

Hong Kong.—One of the heaviest rainstorms in the history of Hong Kong, 11 inches falling from 11 o'clock in the morning until 5.30 o'clock next evening caused considerable damage. The store water near the Asiatic Petroleum Company's new building burst, completely flooding nearby roads and streets. The force of the water lifted up large portions of macadamized roadways and large quantities of earth and sand were washed down from the hillside and deposited on the pavements. The ground floors of many city offices were flooded. Minor landfalls have been reported from various parts of the island.

C.N.R. Claims New Record

Port Arthur, Ont.—Approximately two million bushels of grain were brought to Port Arthur, Oct. 31, by the Canadian National Railway. A total of 1,490 cars arrived and trains arrived at the frequency of one every forty-eight minutes.

This is believed to be a world record for single track operations.

Free Insulin For the Poor

Winnipeg.—Plans were made by the Manitoba Board of Health for distribution of insulin for treatment of diabetes in the province. Insulin will be supplied to medical men certified by the Manitoba Insulin Commission and will be given free to patients unable to pay. Those in a position to pay will get the insulin at cost price.

Officers Are Blamed

Washington.—Bad judgment and faulty navigation on the part of three officers caused the loss of 23 lives and of naval material to the value of \$13,000,000 in the destroyer accident on Honda Point, Cal., September 8. The board of inquiry declared in its final report to Secretary Doolittle.

CHILDREN CRY FOR "CASTORIA"

A Harmless Substitute for Castor Oil, Paregoric, Drops and Soothing Syrups — No Narcotics!

Mother! Fletcher's Castoria has been in use for over 20 years to relieve babies and children of Constipation, Flatulency, Wind, Colic and Diarrhoea; it gives freshness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving natural sleep without opium.

Freight Rates On Grain Are Lowered On Lakes

Port William, Ont.—Shipments of grain now are coming nearer to balancing the receipts than at any previous time this season. Sixteen boats took out 2,444,000 bushels of grain in one day, nine of the cargoes being consigned to Buffalo. Boats representing United States lines which have not been sending to the lakes and the lakes before this season, now are showing up at this port, and the rates both to Buffalo and to Bay ports are lower, the prevailing charter rate to Buffalo for November being five cents and to Bay ports four cents.

Poincare's Four Points

Would Limit Scope of the Reparations Inquiry

Paris.—Premier Poincare made a speech at Nevers in which, as interpreted by the French Foreign Office, he recognized four points as within the jurisdiction of the committee of experts which is to make a reparations inquiry as a result of the recent negotiations of the European chancelleries and the Washington government. The premier by this recognition, it is held, limited consideration of any other point. The four points indicated are:

First—Germany's present capacity for payment.

Second—New methods of payment.

Third—The renovation of German finances.

Fourth—A new monetary system. This programme, the Foreign Office maintains, is in line with that indicated in the United States note to London. Premier Poincare, it is declared, considers that Germany's debt to the allies was not so much an all and cannot be changed any more than the total amount advanced by the United States to the allies during the war can be changed.

Woman Barrister Dead

Toronto.—Miss Clara B. Martin, 49, former member of the board of education and first woman barrister in Ontario, died her Oct. 31.

FRANCE IS NOW SATISFIED WITH ALLIED PROPOSAL

Paris.—The British note regarding the nomination by the reparations committee of the international committee of experts which is to study Germany's capacity for payment, was received at the French Foreign Office.

The note, it was declared, shows the British and French Governments to be in perfect accord on the subject and so far as they are concerned the preliminary to the calling of a conference of experts were considered to have been terminated.

The British Government, through its ambassador, the Marquis of Crewe, has now sent two communications to the French Foreign Office which were received there in happy accord with the conciliatory spirit shown by France in recent intercourse between the two countries.

The first note drew the French Foreign Office's attention to the judicial consequences which might be entailed by the separation of Germany from certain provinces in that such provinces were not signatories of the treaty of Versailles and so would not directly have assumed obligations laid upon the Reich by this treaty.

The second note contained a proposal to the French Government to send a joint British, French, Italian and Belgian invitation to the United States to be represented on the committee of experts which will make an economic investigation into Germany's capacity for the payment of reparations and the means Germany possesses to fulfill her obligations.

The joint invitation will raise objections in the United States for its collaboration and beg the government to appoint delegates, through its observer, on the reparations committee. Thus it can be seen that the British note neither raises objections nor enters the French Government to specify its intentions, as has been reported from London.

GERMAN MARK TAKES ANOTHER SLIP DOWNWARD

Berlin.—The dollar rate, which has been stationary for a week at sixty-five million marks, has taken a noticeable leap to one hundred and thirty million, not only creating havoc on the bourse, but seriously dislocating the price levels for staple commodities have again attained prohibitive limits for the average wage earner.

As virtually no aid is coming from outside of Germany, or is expected from foreign sources, the Berlin municipality is organizing a drive for food and clothing, the official treasury being no longer in a position to finance relief work.

Customs Revenue Increased

Use of Excise Stamps Diverts Income From Post Office

Ottawa.—Customs and excise revenue increased \$22,352,627 during the seven months which ended with October 31, as compared with the corresponding period last year, according to figures furnished by the department of customs and excise. Of this increase \$17,517,468 is accounted for by excise taxes.

It is understood that the obligatory use of revenue stamps for collection purposes which became effective on October 1 diverted a considerable amount of revenue which formerly found its way to the post office department on account of the use of postage stamps.

Total figures for the seven months which ended with October 31 were \$179,381,952, as compared with \$157,039,215 collected during the first seven months of the last fiscal year.

British Refuse to Recognize Rhineland

Independent State Will Be Ignored in Occupied Area

London.—Great Britain has formally advised France and Belgium that it cannot recognize the separatist movement in the Rhineland or the establishment of an individual state in Cologne or other parts of the occupied area.

Paris.—The British Government, the *Havas Agency* understands, has instructed its ambassadors to inform the French and Belgian Governments that it does not recognize the legality of the provisional government of the Rhineland headed by Dr. Doreen and Joseph Mathieu, and will oppose any attempt at a separatist rising in the British zone of Cologne.

Insulin Liable to Sales Tax

May Possibly Be Exempted By Order-in-Council

Ottawa.—The ruling that insulin, the diabetes remedy, though sold at cost to the patient, is liable to the sales tax is explained at the excise department as being due to the fact that this article is not included in the list of exemptions, under the Act. Such being the case it is treated as an ordinary drug.

Now that attention has been directed to the matter it is possible that by order-in-council an exemption may be made unless this is done it is said there is no alternative but to collect the tax.

May Return to Germany

Former Crown Prince Will Be Permitted to Go on Good Behavior

Berlin.—With regard to rumors that the former German Crown Prince had requested permission from the Dutch authorities to return to Germany, it was learned here that no formal request to this effect has been made to the Berlin Government. Informal inquiries showed the fact that the German Government is not unwilling to permit the former Crown Prince to come back to Germany, subject to the strict condition that he will live quietly on his estate in Silesia.

Mine Workers Secretary Sentenced—Halifax.—James D. MacLachlan, former secretary of the United Mine Workers of District 28, has been sentenced to two years in penitentiary at Dorchester on a charge of seditious libel arising out of the recent miners' steel workers' strikes in Nova Scotia.

Mothers to Visit Battlefields—Melbourne.—At a mass meeting held here a scheme was launched whereby funds will be raised by a military tournament and other entertainments to enable Australian mothers who lost sons in the war to visit their graves in France and Belgium.

Manitoba Wheat May Have Competitor

Yeoman Wheat Has High Milling Quality Says British Agriculturalist

London.—Lord Bledisloe, one of the best known of the British agriculturalists, asserts that it is possible by means of the so-called Yeoman wheat for British farmers to grow wheat comparable to the best Manitoba grain and at a profit to themselves. The National Farmers' Union states that the Union is considering the question of how to extend the growing of Yeoman wheat, which comes under the head of a high milling quality recommended in the interim report of the government agricultural committee.

Eighteen Sentenced to Death

Moscow.—Eighteen persons were sentenced to death and 23 given prison sentences as a result of the trial of 68 individuals charged with bribery and corruption. The prisoners were employees of the naval technical department and contractors alleged to be in collusion with them.

Appointment Accepted

London.—The appointment of Frank B. Kellogg as United States Ambassador to Great Britain has been formally accepted by the British Government.

ASPIRIN Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product. Bayer is the name of the company which has been manufacturing Aspirin for over twenty-three years.

Colic, Headache, Toothache, Rheumatism, Neuralgia, Pain, Pain, Pain. Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monocrocin, of Bayer, Hesse, Germany. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations the Tablets of Bayer Company will be stamped with their material trade mark, the "Bayer Cross."

Greek Rebel Condemned

London.—A Greek court-martial at Saloniki has condemned to death Major Sakelarios, who took a leading part in the recent military insurrection, says a Central News dispatch from Athens.

The arrest of General Metaxas, reported to have been the chief of the rebels, is stated to be imminent.

Railway Commissioners Will Hold Sessions

Ottawa.—The Board of Railway Commissioners will hold a series of sittings in western cities in connection with the application for an increase in express rates on Canadian railways. These sittings will be primarily in order to provide opportunity for objections to be heard from interested parties. The board will sit in Edmonton, November 26; in Vancouver, November 29; in Regina, December 3; in Calgary, December 6; in Saskatoon, December 7; in Winnipeg, December 8; and in Winnipeg, December 10.

Doukhobors Return

Were Not Impressed With Farming Conditions in Mexico

Winnipeg.—Lands in Mexico did not impress a delegation of Doukhobors from the Kamack and Buchanan districts in Saskatchewan, according to members of the party who arrived here en route home after an inspection trip to Santa Clara, Chihuahua, Mexico.

They also reported that the Doukhobors who had migrated from Western Canada were making little progress on their Mexican farms. The party went to Mexico as a result of a proposal to exchange their lands in Saskatchewan for clear title to acreage in the Santa Clara district. It was stated that the Doukhobors had considered leaving Canada on account of the way they were harassed by their creditors, but after viewing the land in the south there is little chance of any of them leaving Saskatchewan.

GREAT BRITAIN AND U.S. AGREE ON LIQUOR ISSUE

London.—The run-running issue between the United States and British Governments, which Ambassador Kellogg, in his conferences with British officials repeatedly characterized as a dangerous menace to the existing good relations of the two countries, has been virtually settled.

On the occasion of his formal farewell visit to the Foreign Office, the visiting United States envoy and Foreign Secretary Curzon gave final consideration to the terms of a draft treaty which it is believed will clear up the whole question. The treaty is understood to meet the United States desire for the right to search suspected run-running vessels, beyond the three-mile limit, but at the same time gives to Great Britain the United States' formal affirmation of the three-mile limit as governing British maritime rights generally. It would also allow British ships to carry liquor into United States' territorial waters under seal, thus enabling liners under the Union Jack to maintain bars en route and departing from United States ports.

At the request of the British, the rights of the United States authorities to detain British vessels suspected of run-running will not be confined strictly to 12 miles from shore, or any other arbitrary limit, but will probably embrace the distance covered by the broad term, "an hour's sailing distance from the American shore," which is reckoned roughly at 10 to 15 miles. Thus a "twelve-mile limit" will not be mentioned in the treaty, and the Foreign Office cannot be charged with surrendering its traditional principle regarding the limitation of territorial waters.

Satisfied With Trial

Winnipeg.—That the Eskimos tried at Hetchel Island for murder had been given a thoroughly fair trial and that everything was in accordance with best traditions of a British court of justice was the statement made by Thomas L. Cory, Ottawa, counsel for the defense, who has reached Winnipeg after leaving Hetchel Island, August 12.

FARMING COSTS IN U. S. DOUBLE THAT IN CANADA

Washington.—Formal application to the United States tariff commission for an investigation looking to an increase in the tariff duty on wheat as a means of aiding producers of the northwest states was made by Representative Anderson, Republican, Minnesota.

"In view of the fact with respect to yield and cost per acre, which can be established from data readily obtainable from the departments of the government here and in Canada," says Mr. Anderson's letter to Chairman Marvin, "it does not seem to me to be necessary to make an extended investigation of the difference in production costs in this country and Canada. The unusual conditions existing this year necessitate prompt action by your commission if the unusual differences in the cost of production existing are to be covered by adequate duties."

Under the tariff act President Coolidge is authorized, if the tariff commission deems it necessary, to increase the duty 50 per cent of the existing rate of 30 cents a bushel, but any increase authorized could not be made effective until 30 days after the proclamation by the president of such an increase.

In his letter to Chairman Marvin, Mr. Anderson presented figures to show that the cost of production of wheat in this country is more than double the cost in Canada. He also claimed that the difference in freight rates to primary markets in this country as between United States and Canadian wheat is from 2 1/2 to 10 cents a bushel in favor of the Canadian product.

Disease Amongst British Cattle

Mysterious Outbreaks Cause Owners to Ask for Inquiry

London.—British livestock owners are agitated over the frequent and mysterious outbreaks of foot and mouth disease of which there have been no less than 160 in Great Britain since the end of August, resulting in the compulsory slaughter of 4,750 cattle, 6,270 sheep and 5,573 horses. For these the Government has been obliged to pay nearly £150,000 in compensation.

As the outbreaks have been far apart, infection therefore being seemingly precluded, the suggestion is made that the disease is spread intentionally and the breeders are endeavoring to get the ministry of agriculture to institute an inquiry. They also demand that police detectives be sent to work to trace the supposed offenders.

Heavy Loss From Prairie Fires

Saskatoon.—Over 5,000 bushels of wheat was destroyed and three farmstead buildings, a spectacular prairie fire in the vicinity of Plato and Gresham, Sask., and near the town of Gresham. The fire was finally got under control, the efforts of 1,000 residents of the district were required. At one time the prairie was burning for scores of miles. The village of Gresham was threatened but the flames were stopped within a mile of the village after burning 90 acres of grain in a streak a mile and a half from town.

Brother of W. T. Stead Dies

London.—J. E. Stead, 72, brother of the noted journalist, W. T. Stead, died at Redcar, Yorkshire, after a long illness. Mr. Stead was the acknowledged British authority on the manufacture and metallurgy of steel.

The new Blaimore Garage will open for business this week end.

The death toll in the recent earthquake and tidal wave in Japan is estimated at 400,000.

The town council of North Sydney has ordered that no bill boards will be permitted on Main Street.

Sometimes, even when a man gets a good run for his money, he has to walk home.

The degree of D.D. has been conferred upon Venerable Archdeacon Hayes, of Calgary.

A stocker and feeder show is being held in Lethbridge this week, along similar lines to that held some time ago in Calgary.

A dance will be held in the opera house on New Year's Eve, under the auspices of local chapters of the I.O. D.E.

The total gross receipts for twelve months in Great Britain from motor taxes amounted to £12,662,023. One million, one hundred and five thousand and licenses were issued.

We understand that the Bluff road, west of Coleman, closed last week by the C. P. R., has been re-opened to traffic.

Enaction of laws that will make the purchasing of liquor a crime punishable in the same degree as the selling of liquor is now punished is urged by the Oregon State Anti-Saloon League.

We have a certain amount of sympathy with Attorney-General Brownlee in his expressed hope of successfully enforcing the present prohibition law until new legislation is adopted.

The Alberta government has been officially notified of the desire of His Majesty King George that the Dominion and provinces of Canada join with the motherland in remembering the empire's war dead with two minutes' silence at 11 o'clock on the morning of Armistice Day. It is pointed out that Armistice Day this year falls on Sunday, November 11th, and therefore the silent tribute to the fallen may be observed during the morning services in the churches. The provincial government is asked to co-operate in making known generally the King's special request that citizens everywhere on this occasion reverently give thought to the soldiers who never came back from the Great War.

On no occasion in the recent campaign has anyone attempted to summarize the number of bars of today as compared with those of pre-prohibition days which were under strict government control. Citizens of the various towns throughout the province are in a better position to know these facts than any one who might be imported from the British Isles, the United States or elsewhere. Speaking for Blaimore, the department of attorney-general should be in a position to know that for the past few years, at least, a far greater number of "bars" have been in operation than in pre-prohibition days, when the province kept watch over three licensed saloons. At that time the province reaped a fat revenue from the three institutions, while today in order to get that revenue a few convicts must be created after they have made a fortune from the business, and this fortune from wage-earners who would rather contribute a portion of their earnings to the government by way of refreshment profits.

The Alberta minimum wage board is holding sessions in Edmonton this week.

COAL—If you want a really first-class Domestic Coal, see W. M. Bush's ad on last page of this issue.

A. Morény will conduct a Turkey Shoot on Saturday and Monday next, probably on the flats north of the river.

It seems that some newspapers are just longing that Mr. or Mrs. So and So would die that they might do them a good turn.

A fellow at Taber went after a kiss and got it. The bride's maiden name was Julia Kiss and she married the man named Zeliska on October 30th.

Charles Rutke, believed to be from Lethbridge, was drowned at Lardo, at the upper end of Kootenay Lake, on October 31st.

Fifteen years ago the election returns in this federal riding showed John Herron elected to parliament by a plurality of 303 votes.

There were twenty-four fox farms in Alberta in 1922, in comparison to only half that number the previous year.

Misses Elizabeth Patterson and Annie Penman were down from Calgary over the week end with their parents and returned north on Sunday night.

Rev. Dr. Shearer, of Toronto, was imported to Coleman to deliver an address in the interests of Prohibition. Either the speaker or his subject was so unpopular that less than twenty people turned out to the meeting.

Teacher in local school—"Can some little girl tell me what a mother is?" Nellie rises—"A mother is someone what look into the upper right-hand drawer of a dresser and finds something the rest of the family has spent hours hunting for."

Two Brant men, Harold Dale and Noble Moore, were sentenced by Magistrate Saunders last week to receive ten lashes and to serve six months in jail at hard labor for having violently held up a poker game at Brant on October 13th.

A quelling match will be staged at Coleman on Monday next, between J. Bell, brother of W. Bell, of the Grand Union Hotel and A. Rankin, of Carbondale. Prize will be a thousand-dollar stake. The game will be played at the old curling rink site at 10 a.m.

Vancouver is making a strong bid for the ten million dollars that Henry Ford proposes to spend on the establishment of a new factory and distributing plant in Canada.

Steve Farion, well known Coleman citizen, took unto himself a wife on Monday last.

W. G. Carpenter, for some years superintendent of schools in Edmonton, has been appointed by the provincial government to be director of technical education in the province and principal of the new technical institute at Calgary.

J. B. Harner has been engaged by The Enterprise to make periodical visits to business firms throughout The Pass in the hope of catching some of the business in the printing line that of late has been going to Calgary and Lethbridge. There is no reason why the bulk of this work could not be done locally and at just as good a price. The Enterprise today is better equipped to handle printing orders than most of the city firms canvassing this district. Leave your orders with Mr. Harner and they will receive prompt attention.

WHY YOUR TROUSERS

should be made by us to measure. Ill-fitting trousers spoil the entire effect of a suit no matter whether the coat and vest fit all right. Besides, there's your comfort to consider. Waist too tight or too loose, seat the same, pinching crotch, ungraceful legs, awkward draping give you a sorry appearance. Try us on your next trousers and see the vast difference tailoring makes.
